

9th LOVE STORY FILM FESTIVAL

2018.Apr.

Tokyo(TBD)

※The contents situation may be changed.

introduction

The economic situation of the world follows the worst line. The collapse of greedy capitalism. Large bankruptcy. Today, Japan is also affected by this, and not only the economy but also the way people live are beginning to be reviewed.

The Japanese peaceful way of living is drawing attention also from the international stage as coordinator and neutral winner of the world.

This film festival was devised to disseminate "love" from Japan to all over the world, to purify the rubbed heart and to reconfirm the familiar love.

In recent years, the film festival has been held throughout the world, but among them, there are only a few film festivals with the theme of love as a universal element for humanity.

"Love" is not special.

Love is full of our familiar places. Film love, family love, brotherly love, peace, environment, social contribution, love affair...

We will hold a festival of movies, which is a worldwide language, with the theme of "love" as their theme.

And I hope people can participate and enjoy this film festival and as a result reaffirm "love" and actively play social role.

We believe that this film festival and Japan can appeal to the world.

Purpose

This film festival makes a chance to think about "love" by participants touching and enjoying the form of various love. We also aim to create a society full of love by positively calling for participation in social activities.

Concept

Life is "Love Story".
